PROFILE SUMMARY

Courteous and enthusiastic, I am interested in web development and everything in its orbit. I am currently working for a website company as one of their web developers, and I have been able to gain work experience. As this area complements my studies, I am keen to gain more experience in the field. For this reason, I am looking for a company willing to offer me a placement among their developers. In return, I would offer my full commitment, and be a pleasant and friendly addition to your team. I am therefore currently looking for a position as a full-stack developer.
