PROFILE SUMMARY

Courteous and enthusiastic, I am interested in web development and everything in its orbit. I am currently working for a website company as one of their web developers, and I have been able to gain work experience. As this area complements my studies, I am keen to gain more experience in the field. For this reason, I am looking for a company willing to offer me a placement among their developers. In return, I would offer my full commitment, and be a pleasant and friendly addition to your team. I am therefore currently looking for a position as a full-stack developer.

EXPERIENCE

FULL STACK DEVELOPER | JMIR PUBLICATIONS | FEB. 2019 – PRESENT

Working alongside a team full stack engineers in order to modernize and improve upon a legacy PHP 5.3.27 application.

• Contributed in the upgrade from PHP 5.3.27 to PHP 7.2 in order to improve the general stability, performance, and security of the platform.
• Using Vuejs, I have rearchitected several core modules written initially in jQuery over to Vuejs (with Vuex).
• Assist in the mentoring of junior full stack engineers by showcasing samples of both good and bad code, and contributing to the review of code in pull requests.
• Directly contributed in the improvement to a legacy database, implementing best practices in both tables, and stored procedures.

FULL STACK DEVELOPER | PLACES4STUDENTS INC. | MAY 2015 – JAN. 2019

- Worked as a full stack engineer, developing and maintaining an application used by students throughout North America help find housing in post secondary situations.

    • Re-implemented a legacy ASP.NET application to .NET Core 2.0.
    • Created and maintained reports generated from Google Analytic and a MSSQL database.
    • Working alongside key stakeholders, I implemented features that were conceptualized.
    • Worked to ensure our suite of tools adhered to accessibility standards (WCAG 2.0 and Section 508).

TECHICAL SUPPORT | MINACS | OCTOBER 2010 – JANUARY 2014

- Provided technical support for Apple computer customers
- Provided support for new trainees, for when they start working on phones
- Worked in the computer campaign and then was moved to Applications campaign, which concentrated on iPhoto, iMovie, Pages, Numbers and Garage Band.

EDUCATION

COMPUTER PROGRAMMING | NIAGARA COLLEGE

- **Related Coursework**: Learned to create and manage databases such as creating stored procedures and views. Worked on creating web applications and bringing the database and website together. Learned about project management and used that process to work and create a community sponsored project, where we were asked to create a web application.

GRAPHIC DESIGIN | NIAGARA COLLEGE

- **Related Coursework**: Worked on creating designs from start to finish, also learned the best practices when it comes to typography and the proper use of color and empty space. Learned how to convert hand draw layouts to digital versions.
